Seminar Programme

Thursday March 10th 2005

In partnership with the TsunaMat Training Network, a highly valued seminar programme accompanies the exhibition. There are three presentation sessions during the day, each with a specific theme. The first session looks at the major shifts in structure and employability in the region in the coming years. This is followed by a lunchtime presentation from various exhibition companies of innovative new products and services that have been recently launched. The final afternoon session continues the theme from the morning and describes several projects being carried out in the region to improve the capability of its sub-supply sector.

Exhibition Opening

09:30: *Official opening* Kevin Thompstone, Chief Executive, Shannon Development

Presentation Session 1 – The Challenge for Manufacturing

11:00: *The SNS Story* Maurice McLernon, Chairman Supply Network Shannon

11:20: *Ireland's Future in Manufacturing – Next Generation Employability* Prof. Eamonn Murphy, Director Enterprise Research Centre, University of Limerick

11:40: *Adding Global Value through local Business Innovation – The Avocent Story* Kieran MacSweeney, Senior Vice President, Global Corporate Quality and Managing Director, Avocent International

Presentation Session 2 – New Product and Services Launch

13:00: *Launch of Environmental Protection Agency funded Demonstration Project: "SME Environmental Performance Network Actions"* Dr. Bernadette O'Regan, University of Limerick-Supply Network Shannon

13:20: *Exhibitor Product/Service Launch – demonstration of innovative new products and services by exhibitors* Various

08.30 - 09.30: Shannon Development & Irish Exporters Association Seminar - *Supply Chain Opportunities & Threats from China & Asia*

Friday 11th March 2005

Tour of the Dell EMEA Production Facility, Limerick 

What is SNS – Supply Network Shannon?

Supply Network Shannon is an open network of companies in the Shannon Region that was established in January 1999 with the support of Shannon Development and AMT Ireland, University of Limerick. The Shannon Region's world class sub-supply companies employ over 4,000 people and have a combined turnover in excess of 200 million euro.

SNS aims to promote, develop and market sub-supply capability in the Shannon Region and reinforce the region as the world class sub-supply source of design, manufacturing & support services.

The network focuses on a number of business and technical issues of importance to the sub-supply sector in the region. Supply Network Shannon has a number of active sub-committees in areas such as Marketing, Environment, Training & Supply Chain Management (SCM).
